How it works

Safe. Transparent. Zero risk.

1.214	12 Monate	48h	100%	DEKRA
Handovers	Warranty	Test drive	Money back	Inspected

Two ways to buy

Every vehicle has two entry points. After that, the flow is identical.

Make an offer

Propose your own price: pick one of three suggested amounts or type your target. Our team reviews within 24-48 hours and either accepts, counter-offers, or rejects. If accepted, the vehicle is locked for you.

Close auction now

Buy at the dealer's preset instant-close price. The vehicle is reserved for you immediately - no review wait. Skip straight into the buying flow.

! Either way: your money is held safe by Buyer Protection, never by us. Released only when you accept the car.

From there, 3 clear phases. Nothing hidden.

PHASE 1

1. Choose & Reserve

You browse our catalogue and reserve the vehicle online. You upload your ID once per account — never again on future auctions. We send you the auction contract together with the DEKRA inspection report and the 12-month warranty certificate. You sign and send it back.

PHASE 2 · SAFETY CORE

2. Secure payment via Buyer Protection

Once the contract is signed, we send you the invoice with the Buyer Protection account details for the wire transfer. Your payment goes strictly to that account. The dealer never touches the money until you personally accept the vehicle after the test drive.

PHASE 3

3. Delivery, test drive & your decision

Once payment is received, the bank releases the vehicle and we deliver free of charge across the entire EU. You get 48 hours of test drive. If the car is a match you sign the final contract and Buyer Protection releases the payment. If not, you get a 100% refund — same day, no fee, no questions asked.

Why is this safe?

Four pillars that protect your money.

Buyer Protection

Your money is held safe by an independent third party until you sign off on the vehicle.

DEKRA inspected

Every vehicle independently inspected before listing. Full report included with your contract.

12-month warranty

Included at no extra cost on every vehicle we sell. Covers motor, gearbox, electrics and main components.

48h + 100% back

Take 48 hours with the car. If anything is off, full refund — no questions asked.

Still have questions?

Our team walks you through the process in plain language, no commitment.
